

The Sharkoon logo, featuring a stylized shark fin icon to the left of the brand name "Sharkoon" in a bold, white, sans-serif font.A close-up of the Sharkoon RUSH ER40 USB gaming headset. The ear cup is illuminated with a vibrant, multi-colored rainbow light. The headset has a black frame and a flexible boom microphone. The background is a dark, abstract pattern of glowing dots in various colors.

# RUSH ER40

USB GAMING HEADSET

The RUSH ER40 gaming headset impresses both acoustically and visually: the 50 mm driver and the software with a 10-band equalizer will always ensure a thrilling listening experience. Visually, the headset impresses with its 3D-RGB illumination on the ear cups. The adjustable headband and the movable ear cups provide comfortable wearing.

## **Balanced Sound**

The RUSH ER40 is equipped with a 50 mm driver for a balanced sound. The inline controller allows the volume to be regulated and the microphone to be muted.

The software can be used to activate the virtual 7.1 sound and fine-tune the audio with the 10-band equalizer.

A square icon with a black background and white text that reads "VIRTUAL 7.1 SOUND".

## **Striking Array of Colors**

Via the inline controller, impressive 3D-RGB illumination with a spatial depth effect can be activated and deactivated at the push of a button.

The illumination is displayed in two variations: as a dynamic radial effect, or as a permanent glow without movement.

## ***Simply Comfortable***

Using the inline controller, the volume is easily adjusted, and the microphone can be muted.

The adjustable headband and the movable ear cups ensure a comfortable fit, while the fabric-covered ear pads allow you to keep a cool head, even after hours of wear.

## ***Clear Voice Transmission***

The clear voice transmission of the microphone is supplemented by an included pop filter, which efficiently filters out plosives from speech.

## ***Hard-Wearing Cable***

The cable is made of flexible TPE, which does not coil and tangle so easily and is also better protected against cable breaks. The cable is 240 cm long and has a USB connector.
